Screening Questions

Please respond to the following questions about your substance use. Your responses will help evaluate potential risks and the need for further assessment.

Questions	Yes	No
Do you need to use the substance more often than before to achieve the same effect?		
Have you tried to cut down or stop using the substance but couldn't?		
Do you spend much time obtaining, using, or recovering from the substance?		
4. Do you have strong urges or cravings to use the substance?		
Do you continue using the importance despite it causing social or relationship problems?		
Do you neglect home, work, or school responsibilities because of substance use?		
7. Has your substance use led to unsafe situations, such as driving under the influence?		

8. When trying to quit, have you experienced withdrawal symptoms, such as agitation, anxiety, or tremors? 9. Do you continue to use despite experiencing health problems due to substance use? 10. Has your tolerance to the substance increased significantly since you started using it? 11. Have you lost interest in activities you used to enjoy because of substance use? 12. Do you use the substance to avoid dealing with your problems? 13. Do you feel 'normal' only when you use the importance? 14. Have you faced legal trouble due to your substance use? 15. Have your family members, or friends expressed concern about your substance use?

14. Have you faced legal trouble due to your substance use?
15. Have your family members, or friends expressed concern
Interpretation If you answered "Yes" to two or more of these questions, you may have a Substance Use Disorder (SUD). This is a preliminary screening and is not intended to diagnose an SUD. Please consult a healthcare professional for a comprehensive assessment and potential treatment options.

Remember, this tool is not a diagnostic instrument but a preliminary step toward identifying potential substance misuse. It's crucial to seek professional medical advice to understand the situation comprehensively.
