

# Anion Gap Blood Test

## Patient Information

Name:

Age:

Gender:  Male  Female  Other:

Date of Birth:

Contact Number:

## Medical History & Related Questions

Current Medications:

Previous Illnesses:

Symptoms Experienced:

Any recent intoxications?

Tests:

Date of Test:

Sample Collected:

Findings	
<b>Sodium (Na+):</b>	<i>(Normal range: 135-145 mEq/L)</i>
<b>Potassium (K+):</b>	<i>(Normal range: 3.5-5.0 mEq/L)</i>
<b>Chloride (Cl-):</b>	<i>(Normal range: 96-106 mEq/L)</i>
<b>Bicarbonate (HCO3-):</b>	<i>(Normal range: 22-28 mEq/L)</i>
<b>Anion Gap Calculation:</b>	<i>Anion Gap = (Sodium + Potassium) - (Chloride + Bicarbonate)</i>
<b>Resulted Anion Gap:</b>	<i>(Normal range: 8-16 mEq/L)</i>
Interpretation	
<b>Individual Ion Interpretation:</b>	<b>Overall Anion Gap Interpretation:</b>
