## **Binge Eating Quiz**

**Disclaimer:** This Binge Eating Quiz is based on the Binge Eating Scale (BES) developed by Gormally et al. in 1982. While there is no official Binge Eating Quiz, the BES is an effective self-report instrument designed to assess the presence and behavioral manifestations of Binge Eating Disorder (BED).

9.	
	My level of calorie intake does not go up very high or go down very low on a regular basis.
	Sometimes after I overeat, I will try to reduce my caloric intake to almost nothing to compensate for the excess calories I've eaten.
	I have a regular habit of overeating during the night. It seems that my routine is not to be hungry in the morning but overeat in the evening.
	In my adult years, I have had week-long periods where I practically starve myself. This follows periods when I overeat. It seems I live a life of either "feast or famine."
10.	
	I usually am able to stop eating when I want to. I know when "enough is enough."
	Every so often, I experience a compulsion to eat which I can't seem to control.
	Frequently, I experience strong urges to eat which I seem unable to control, but at other times I can control my eating urges.
	I feel incapable of controlling urges to eat. I have a fear of not being able to stop eating voluntarily.
11.	
	I don't have any problem stopping eating when I feel full.

13.
☐ I eat three meals a day with only an occasional between meal snack.
☐ I eat 3 meals a day, but I also normally snack between meals.
☐ When I am snacking heavily, I get in the habit of skipping regular meals.
☐ There are regular periods when I seem to be continually eating, with no planned meals.
14.
☐ I don't think much about trying to control unwanted eating urges.
At least some of the time, I feel my thoughts are pre-occupied with trying to control my eating urges.
☐ I feel that frequently I spend much time thinking about how much I ate or about trying not to eat anymore.
It seems to me that most of my waking hours are pre-occupied by thoughts about eating or not eating. I feel like I'm constantly struggling not to eat.
15.
☐ I don't think about food a great deal.
☐ I have strong cravings for food but they last only for brief periods of time.
☐ I have days when I can't seem to think about anything else but food.
☐ Most of my days seem to be pre-occupied with thoughts about food. I feel like I live to eat.
16.
☐ I usually know whether or not I'm physically hungry. I take the right portion of food to satisfy me.
Occasionally, I feel uncertain about knowing whether or not I'm physically hungry. At these times it's hard to know how much food I should take to satisfy me.
Even though I might know how many calories I should eat, I don't have any idea what is a "normal" amount of food for me.

Scoring and interpretation

- Each item presents 3–4 statements reflecting increasing severity of binge-eating behaviors, emotions, or cognitions. Respondents select the statement that best matches their experience. Statements per item are weighted from 0 (no severity) to 3 (most severe).For example:
- - "I usually can stop eating when I want to" = 0 points.
  - "Frequently, I experience uncontrollable urges to eat" = 2 points
- 0–46 points, calculated by summing all item scores

Score range	Classification	Clinical significance
0-17	Non-binge eater	Minimal or no binge-eating symptoms
18-26	Moderate binge eater	Indicates probable binge-eating disorder
27-46	Severe binge eater	High likelihood of clinical BED; warrants intervention
