Corrected Calcium Equation Calculation

Patient Information

Date of Calculation: ____/___/____

Laboratory Results

- Total Serum Calcium (mg/dL): ______
- Serum Albumin Level (g/dL): ______

Calculation

Corrected Calcium (mg/dL): _____

Calculation Formula

Corrected Calcium (mg/dL) = $8.2 + 0.8 \times (4.0 - 3.0)$

Interpretation

Corrected Calcium Level:

- Normal Range: ______
- Low Range: ______
- High Range: ______

Clinical Assessment

Clinical Notes

Follow-Up Recommendations

Medical Professional's Signature: Dr. Jane Smith
Date: ____/___/____
