CRAFFT Score Interpretation

Probability of a DSM-5 Substance Use Disorder by CRAFFT score*

*Data source: Mitchell SG, Kelly SM, Gryczynski J, Myers CP, O'Grady KE, Kirk AS, & Schwartz RP. (2014). The CRAFFT cut-points and DSM-5 criteria for alcohol and other drugs: a reevaluation and reexamination. *Substance Abuse*, 35(4), 376–80.

Use the 5 R's talking points for brief counseling.

1. **REVIEW** screening results
For each "yes" response: *"Can you tell me more about that?"*

2. **RECOMMEND** not to use
"As your doctor (nurse/health care provider), my recommendation is not to use any alcohol, marijuana or other drug because they can: 1) Harm your developing brain; 2) Interfere with learning and memory, and 3) Put you in embarrassing or dangerous situations."

3. **RIDING/DRIVING** risk counseling
"Motor vehicle crashes are the leading cause of death for young people. I give all my patients the Contract for Life. Please take it home and discuss it with your parents/guardians to create a plan for safe rides home."

4. **RESPONSE** elicit self-motivational statements
Non-users: *"If someone asked you why you don't drink or use drugs, what would you say?"* Users: *"What would be some of the benefits of not using?"*

5. **REINFORCE** self-efficacy
"I believe you have what it takes to keep alcohol and drugs from getting in the way of achieving your goals."
