## Elderly Mobility Scale

Assessor's Full Name:
Holly R. Salamanca

| TASK |  |
| :---: | :---: |
| 1. Lying to Sitting | © 2 points = Independent 1 point $=$ Needs help of 1 person <br> O 0 points $=$ Needs help of $2+$ people |
| 2. Sitting to Lying | © 2 points = Independent <br> O 1 point = Needs help of 1 person <br> O 0 points $=$ Needs help of $2+$ people |
| 3. Sitting to Standing | O 3 points = Independent in under 3 seconds <br> © 2 points = Independent in over 3 seconds <br> O 1 point $=$ Needs help of 1 person <br> O 0 points $=$ Needs help of $2+$ people |
| 4. Standing | O 3 points = Stands without support and is able to reach <br> 2 points $=$ Stands without support but needs support to reach 1 point = Stands but needs support <br> 0 points = Stands only with physical support of another person |
| 5. Gait | © 3 points = Independent with or without a walking stick/cane 2 points = Independent with a walking frame 1 point = Mobile with walking aid but erratic / unsafe 0 points = Needs physical help or constant supervision to walk |
| 6. Timed 6-meter Walk | O 3 points = Was able to finish under 15 seconds <br> © 2 points = Was able to finish between $16-30$ seconds <br> O 1 point = Took over 30 seconds to finish <br> O 0 points = Unable to cover 6 meters |
| 7. Functional Reach | $\begin{aligned} & \text { O } 4 \text { points }=\text { Their reach is over } 20 \mathrm{~cm} . \\ & \bigodot_{2} \text { points }=\text { Their reach is between } 10-20 \mathrm{~cm} \text {. } \\ & \text { O points }=\text { Their reach is under } 10 \mathrm{~cm} . \end{aligned}$ |

## Total Score: 15

Scores of 0-9 mean that the patient is dependent on mobility maneuvers. They require help/support for basic activities of daily living

Scores of 10-13 mean that the patient is borderline in terms of safe mobility and independence when it comes to activities of daily living, but they still require help with some mobility maneuvers

Scores of 14+ mean that the patient is able to perform mobility maneuvers alone and safely, plus, they are independent when it comes to basic activities of daily living
