Airline Representative/Ticketing Office: Airline Representative/Ticketing Office

Airline Name: Pacific Airlines

Address: 5678 Airline Drive

City, State, Zip Code: San Francisco, CA 94103

Subject: Alexander Johnson

Dear Airline Representative,

I am writing this letter to confirm that my patient, Alexander Johnson, has been under my care and treatment for a mental health condition that substantially affects one or more of their major life activities. As an integral part of their treatment plan, I have prescribed an emotional support animal (ESA) to assist in managing their symptoms.

Based on my professional evaluation and extensive experience treating the patient, I have determined that an ESA is crucial for their mental health and overall well-being. The specific type of animal I have prescribed is named Buddy, which will accompany the patient during their air travel.

I am a licensed Clinical Psychologist in the state of California, and my license number is CA-789456. My license was issued on January 12, 2018. I am authorized to provide this letter as a professional evaluation and prescription for an ESA to be granted to my patient under the

Americans with Disabilities Act. While the legal landscape has evolved, I am providing this letter to inform you of the therapeutic need for the presence of an ESA during air travel.

If you have any questions or concerns, please do not hesitate to contact me at (555) 123-4567 or emily.martin@martinwellness.com.

Thank you for your prompt attention to this matter.

Sincerely,

Name: Dr. Emily Martin
