Exposure Hierarchy OCD Worksheet

F	Patient Info	rmation:					
Name:			Date:				
1	Therapist:						
I	nstructions	s:					
		rk collaboratively with the patient to create a list of feared situations or obsessions ted to their OCD.					
		Rank these situations or obsessions from least anxiety-provoking (easiest) to most anxiety provoking (hardest) on a scale of 0-10, with 0 being no anxiety and 10 being extreme anxiety.					
	3. Plan exposure exercises starting from the least anxiety-provoking situation and gradually progressing to the most anxiety-provoking.						
	4. Record the details of each exposure exercise in the table below.						
	5. Review and update the hierarchy regularly based on the patient's progress.
