- Every day
- Several times a week
- About once a week
- Two or three times a month
- About once a month
- Not at all

Scoring

Equation:

- Scale Score = (added scores per question) - (number of questions in the section) / (number of questions in the section).
- Scale Score x 100 / (number of questions in the section) = (the total score for the section)

Example:

- To give you a better picture, we'll give you an example. For this one, we will be looking at the Basic ADLs section, which has three questions. Let's say they got the highest score possible for each question. The calculation for this would be:
 - (4+4+4) - 3 / 3 = 3 (Scale Score)
 - 3 x 100 / 3 = 100 (total score for the section)

Basic Activities of Daily Living:

Intermediate Activities of Daily Living:

Mental Health:

Work Performance:

Social Activity:

Quality of Interactions:

Score Ranges

Category	Warning	Good
Basic ADLs	0 - 87	88 - 100
Intermediate ADLs	0 - 77	78 - 100
Mental Health	0 - 70	71 - 100
Work Performance	0 - 78	79 - 100
Social Activities	0 - 78	79 - 100
Quality of Interactions	0 - 69	70 - 100
