Original HbA1c Measurement

Original Unit:

Original Value:

Converted HbA1c Measurement

Converted Unit:

Converted Value:

Conversion Process

1. Identify the original unit of measurement (Percentage).
2. Locate the original HbA1c value in the conversion chart.

Original HbA1c (Percentage)	Converted (IFCC mmol/mol)
5.0%	31
5.5%	37
6.0%	42
6.5%	48
7.0%	53
7.5%	58
8.0%	64
8.5%	69
9.0%	75
9.5%	80

10.0%	86
-------	----

1. Find the corresponding value in the converted unit.
2. Record the converted HbA1c value in the patient's medical record.
