

ICU Presentation

Patient information

I. Basic information	
Full name:	
Documentation date:	
Patient ID#:	Date of birth:
Age:	Gender:
Hemodialysis day #:	Post-op day #:
Known allergies:	
Family medical history:	
Why is the patient in the ICU?	
II. Patient's orientation	
Past medical history:	
Past surgical history:	

Notable overnight events (if any):
Active problems/injuries (if any):

Review of systems

I. Neurological
Subjective
Pain:
Sleep:
Numbness/dizziness:
Other:

Objective
Mental state examination:
Awake, alert, and oriented:
PERRLA:
Strength:
Reflexes:
Central nervous system:
Sensations:
Results and medications
Labs:

CT scan:

MRI:

Lumbar puncture:

Medicines:

Plan

II. Cardiovascular

Subjective

Objective

Blood pressure:

Heart rate:
Extremities:
Distal pulse:
Results and medications
Labs:
HCO:
Cardiac enzymes:
Lipids:
Lactate:
Medicines:

B-type natriuretic peptide:

Plan

III. Respiratory

Subjective

Objective

Respiratory rate:

Oxygen saturation (SpO₂):

C. tube:

Ventilator:

Tidal volume:
Positive end-expiratory pressure:
Pressure support ventilation:
Fraction of inspired oxygen (FiO2):
Results and medications
B gas:
Acid/base:
X-ray:
CT scan:
Medicines:

Access:

Basic metabolic panel:

Results and medications

Plan

V. Gastrointestinal

Subjective

Objective

PO intake:

Bowel output:

Abdominal drainage:
Diet:
Total parenteral nutrition (TPN):
Ostomy:
Results and medications
LFTs:
Amylase:
Lipase:
X-ray:
CT scan:

Medicines:
Plan
VI. Heme
Subjective
Objective
Hematocrit (HCT):
Blood loss:
Antibiotics (Abx):
Complete blood count (CBC):

Results and medications
Hemoglobin:
Platelet count:
International normalized ratio:
Partial thromboplastin time:
Medicines:
Plan
VII. Infectious disease(s)
Subjective

Objective
Max temperature:
White blood cell count:
Drain fluid:
Results and medications
Bands:
Labs:
Plan
VIII. Endocrinology
Subjective

Objective	
Results and medications	
Glutamic acid (Glu):	
Thyroid-stimulating hormone (TSH):	
Corticosterone (Cort):	
Plan	
Risk reduction	
Chloride:	Foley:
Nasogastric tube (NGT):	CT:
Drains:	Stress ulcer ppx:
Decubitus ulcer ppx:	Deep vein thrombosis ppx:
Out of bed (OOB):	

To-do's

Notes
