Scoring and Interpretation Information

Scores are presented for each of the five subscales, plus a total impulsivity score. In addition to the raw scores, the mean is calculated for the items on each subscale, from 1 to 4, where 1 indicates that the respondent did not endorse impulsive answers, and 4 indicates a high level of self-reported impulsivity.

Interpretive Text

(To be filled in after the assessment)

A large, empty rectangular box with a thin grey border, intended for entering interpretive text after the assessment.
