Brief overview of keto diet	
A Ketogenic Diet Food List is a structured grocery guide designed for individuals following a ketogenic diet which is a low-carbohydrate eating plan that emphasizes high saturated fat and moderate protein intake. This list categorizes foods to simplify keto meal planning and help you make informed choices when shopping or preparing meals.	
Protein	Dairy products
 Chicken Poultry meat Turkey Pork or any steak Lamb Tofu Eggs Bacon Other moderate protein diet staples 	 Plain Greek yogurt Cottage cheese Cream Butter High fat dairy products Sour cream Cheeses rich in healthy fats and low in net carbs
Non-starchy vegetables	Fruits
 Broccoli Cauliflower Green leafy vegetables Bell peppers Asparagus Artichokes Eggplant 	 Avocados Lemons Tomatoes Coconuts Apricots Berries
Nuts and seeds	Others
 Almonds Walnuts Macadamias Hazelnuts Chia seeds Sunflower seeds Flax seeds 	 Stevia Erythritol Protein powder Dark chocolate Almond flour Unsweetened coffee

The food list is intended as a general guide for clients and should not replace personalized medical or nutritional advice. Always ensure dietary recommendations are tailored to each client's individual health status, goals, and needs.
