

# Level of Consciousness Assessment

Rate the best response in each category. Tally for a total score.

Score	Motor Response (M)	Verbal Response (V)	Facial Expression	Eye Opening (E)
4 - Spontaneous	Obeys commands for movement	Oriented, engages in conversation	Normal, appropriate to the situation	Opens eyes spontaneously
3 - To Verbal Command	Performs movements upon request	Confused conversation, but able to answer questions	Marked relaxation, possible slack jaw	Opens eyes to speech
2 - To Pain	Withdraws in response to pain	Inappropriate words, moans or screams, no conversational exchange	Minimal or no facial expression may have a grimace on stimuli	Opens eyes in response to pain
1 - No Response	No motor response or extension to pain	No verbal response	No facial expression, may have reflexive grimace to pain	No eye opening
