

Normal ECG Values Chart

Name	Date
Age	Sex
Diagnosis	
Medical history	
<p>A Normal ECG values Chart illustrates the typical ranges for different components of an electrocardiogram (ECG) waveform. It helps healthcare professionals interpret ECG readings and identify any abnormalities.</p>	
ECG Component	Measurement Range
Heart Rate (HR)	60 - 100 beats per minute
P Wave Duration	0.06 - 0.12 seconds
PR Interval	0.12 - 0.20 seconds
QRS Complex Duration	Less than or equal to 0.12
QT Interval	0.36 - 0.44 seconds
QTc Interval (Corrected QT)	0.36 - 0.44 seconds or <450 milliseconds (in males) <470 milliseconds (in females)
T wave deflection	At least 5 of the 6 limb leads
T Wave Duration	0.10 - 0.25 seconds
Additional notes
