Lower Teeth

Tooth Name	Erupt	Shed
Central Incisors	6 to 10 months old	6 to 7 years old
Lateral Incisors	10 to 16 months old	7 to 8 years old
First Molars	14 to 18 months old	9 to 12 years old
Canine	17 to 23 months old	9 to 11 years old
Second Molars	25 to 31 months old	10 to 12 years old

Notes:

Eruption pattern within normal range for age.

Oral hygiene is good; continue to monitor and assist with brushing.

No signs of dental caries.

Recommend follow-up in 6 months to monitor eruption of canines and second molars.

Educate parents on teething discomfort management for erupting canines.
