

Protein Creatinine Ratio Chart

Patient name:		Date of birth:	
Medical record number:			
Relevant medical information (if needed):			
Reference range			
Normal		<15 mg/mmol Creatinine	
Trace proteinuria		15 - 49 mg/mmol Creatinine	
Significant proteinuria		50 - 99 mg/mmol Creatinine	
High proteinuria		100 - 300 mg/mmol Creatinine	
"Nephrotic range" proteinuria		>300 mg/mmol Creatinine	
<i>Note that different laboratories may have different reference ranges.</i>
