

# Rorschach Inkblot Test for Thought Disorder

## Patient Information:

Full Name: \_\_\_\_\_

Date: \_\_\_\_\_

Date of Birth: \_\_\_\_\_

Identification Number: \_\_\_\_\_

## Instructions for Patient:

1. You will be shown a series of 10 inkblot images, one at a time.
2. For each inkblot, you're required to share what you perceive the image to represent.
3. Please describe your interpretations as freely and as thoroughly as possible.
4. Your responses will be recorded and subsequently analysed.
5. After all the inkblots have been shown, you may be asked to elaborate on some of your interpretations.
6. The test usually takes between 45 minutes and an hour.

**Please Note:** There are no right or wrong answers in this test. It is designed to understand your perception and cognitive processes.

## Additional Comments for Patient:

- Please ensure to allocate enough time to complete the test without rush.
- It's recommended to take the test in a quiet, comfortable environment to allow for maximum focus and minimal distractions.
- Feel free to reach out if you have any questions or need further clarification regarding any aspect of the test.
