

Sugar Elimination Diet Plan

Personal Details

- **Name:** _____
- **Date:** _____
- **Starting Weight:** _____
- **Goal Weight:** _____
- **Health Goals:** _____

Diet Overview

The Sugar Elimination Diet Plan is designed to remove all added sugars and artificial sweeteners from your diet. This plan encourages the consumption of whole, unprocessed foods and aims to increase awareness of hidden sugars in common food items.

Week 1: Awareness and Preparation

- **Objective:** Identify and reduce sources of added sugars.
- **Actions:**
 - Maintain a food diary for sugar tracking.
 - Learn to read and understand food labels.
 - Start reducing sugar portions.
 - Plan sugar-free meals and snacks.

Week 2-4: Elimination and Adjustment

- **Objective:** Eliminate added sugars completely.
- **Actions:**
 - Exclude processed foods with added sugars.
 - Opt for whole fruits over juices or sweetened alternatives.
 - Introduce natural sweeteners like stevia or monk fruit (if needed).
 - Increase intake of vegetables, lean proteins, and whole grains.

Daily Meal Plan

- **Breakfast:**
 - Options: Oatmeal with nuts and berries, Greek yogurt with cinnamon, Scrambled eggs with spinach.
- **Lunch:**

- Options: Grilled chicken salad, Quinoa and roasted vegetables, Turkey and avocado wrap (whole grain, no added sugars).
- **Dinner:**
 - Options: Baked salmon with steamed broccoli, Stir-fried tofu with mixed vegetables, Beef and vegetable stew.
- **Snacks:**
 - Options: Raw nuts, Sliced cucumber and hummus, Fresh fruit slices.

Tips and Reminders

- Drink plenty of water throughout the day.
- Check for sugars in condiments and dressings.
- Prepare meals at home to control ingredients.
- Be mindful of sugar cravings and find healthy alternatives.
