

Tooth Number Chart

Name	Date
-------------	-------------

The Tooth Number Chart is a standardized system used by dentists to identify and label individual teeth in the human mouth. This chart is commonly referred to as the Universal Numbering System and assigns a unique number to each tooth in a person's mouth, regardless of age.

Universal Numbering System. (n.d.). Universal Numbering System [Dental tooth numbering chart]. In Wikipedia. https://en.wikipedia.org/wiki/File:Universal_Numbering_System.svg
