

# Verb Network Strengthening Treatment (VNeST) Worksheet

Generate a set of transitive verbs. Create three specific subject (Who) - object (What) pairs for the chosen verb, aiming for maximum specificity. For a more engaging experience, create notecards with the words written on them, which can be cut into individual cards and shown to the person. For additional practice, choose one of the three triads and elaborate on it by asking "WHERE" it occurs, "WHEN" it occurs, and "WHY" it occurs while displaying corresponding cards, then read the resulting detailed sentence.

**WHO**

**VERB**

**WHAT**

**WHO**

**VERB**

**WHAT**
